Re: Y-2 Zone, Reservoir B; DeQuincy Field,
Calcasieu Parish, Louisiana

Dear Commissioner Welsh:

Application is hereby made on behalf of Samedan Oil Corporation to the Commissioner of Conservation for the calling of a public hearing, after legal notice, pertaining to the following matters relative to the Y-2 Zone, Reservoir B, DeQuincy Field, Calcasieu Parish, Louisiana:

1. To establish rules and regulations governing the exploration for and production of gas and condensate from the Y-2 Zone, Reservoir B in the DeQuincy Field, Calcasieu Parish, Louisiana;
2. To create a single drilling and production unit for the Y-2 Zone, Reservoir B designated as the Y-2 RB SUA, as shown on the plat attached hereto;

3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the units so created on a surface acreage basis of participation;
4. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the Reservoir change and evidence to justify reclassification is submitted to and accepted by the Commissioner of Conservation;
5. To consider such other matters as may be pertinent to the Y-2 Zone, Reservoir B.

The Y-2 Sand in the DeQuincy Field, Calcasieu Parish, Louisiana was originally defined in Office of Conservation Order No. 195-B, effective November 19, 1985, and was re-defined in Office of Conservation Order No. 195-B-1, effective October 21, 1986. The Y-2 Zone in the DeQuincy Field, Calcasieu Parish, Louisiana is hereby defined as that zone encountered between the depths of 9,175' feet and 10,000 feet (electrical log measurements) in the Beck Oil Co. - Edgewood Land & Logging Co. No. 1 Well located in Section 29, Township 7 South, Range 10 West, Calcasieu Parish, Louisiana.

The pre-application conference was held as scheduled on October 23, 2002. In attendance were the parties shown on the attached attendance list. The conference was opened by the undersigned and turned over to Travis Helms, consulting geologist for the applicant, who discussed the bases of the applicant's proposal. Mr. David Sturlese, on behalf of the Bertrand interests, showed a potential counterplan which shifted the proposed unit to the north. After further questions and answers, the conference was adjourned.

Since the conclusion of the conference, the parties have been able to resolve their differences, resulting in the revised proposal attached hereto. Accordingly, no opposition is expected at the hearing. Should any party wish to confer about the revised proposal, please contact the undersigned and a pre-hearing conference will be scheduled.

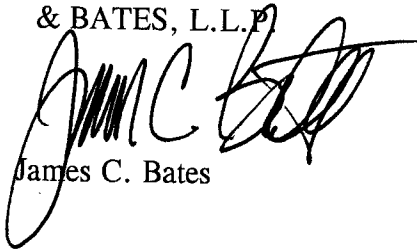

All pertinent data relating to this application may be obtained **AT THE COST OF THE REQUESTING PARTY** from Cutright & Hardwick, P. O. Box 80972, Lafayette, Louisiana, 70598-0972, (337) 232-7756.

Hon. James H. Welch
Commissioner of Conservation
