Additional Remarks Remarks regarding the #3 Well Pad on the eastern edge of the sinkhole according to Bret Barras: "the Slough Off looks to be 60' in depth and 90' in length along the Northwest to Northeast side of the Oxy #3 Well Pad. The work pad extension where the excavator worked from to remove sink hole debris is completely gone. The green 8" pipe marker at the beginning of the work pad is gone. Approximately 15' of the #3 Well Pad has sloughed off. This is referencing where the green 8" pipe was located."
