CSG STUB
Met John Boudreaux with Assumption Parish at Bayou Corne Command Post --
Went and took GPS Reading on csg stub in the woods that has bubbling around it --
* CSG Stub = GPS Readings: North 30dg 00' 34.7" West 91dg 8' 43.8" --
E-Mail pictures and movies of the bubbling around the stub and the surrounding area to
Wayne Simar and Richard Hudson in Lafayette Office and to Sarah Wagner in Baton Rouge
Office -- The csg stub measure 4 1/2" OD -- Ran a weighted line inside the csg and it
tagged up at 105' +/- -- Also called a local Contractor on a price to dig around the stub with
an excavator -- He'll need mats to cover the pipeline crossing on the road and mats for inside
the woods -- We also talked about having a Diesel Pump with hoses to pump out the water
as we dig -- Depending on how deep we need to go -- Sent a copy of his quote to Sarah Wagner,
Richard Hudson and Wayne Simar --
There is no oil sheen on the water around the stub -- The stub is about 40 to 50 feet +/- east of the
location road - and about 100' +/- North of Well Ser # 202913 --
Called Contractors for quote:
1) Rene's Trucking, Inc. & SME Contracting, LLC -- Got quote and sent it on to Baton Rouge --
2) Shelby Gaudet Contractors, Inc. -- Waiting on quote --
3) Gus Hernandez Contractor -- Will meet with them in the morning --
5:30 am to 8:00 am -- 2.5 hrs over
8:00 am to 4:30 pm -- 8 Hrs Regular
4:30 pm to 10:00 pm -- 5.5 Hrs Over
1/2 hr off for Dinner
Total Hrs = 16 Hrs
