**RE: In response to State of Louisiana Department of Natural Resources Office of Conservation's Second Amendment to Declaration of Emergency and Directive**

Commissioner Welsh,

In response to the Second Amendment and Declaration of Emergency and Directive order issued by the Louisiana Department of Natural Resources (LDNR), Office of Conservation on September 25, 2012, Texas Brine Company, LLC (TPC) understands the seven items listed in the document.

In the above mentioned, TBC was specifically directed and ordered to perform certain tasks outlined in the above mentioned document. Below are the required responses, as directed.

1. TBC's counsel provided LDNR legal counsel with a response to Directives 1-3 on September 28, 2012.
2. TBC understands Directive 4, which is to provide all daily logs and field notes from all contractors conducting investigation into subsidence and natural gas bubbling. The Daily Action Summary and results for current information can be found in the Attachment section of this report.
3. TBC understands Directive 5, which directs TBC to immediately allow for split or share any sample taken on site related to Well 3A (Serial Number 974265), the cavern, other wells facilities or other site locations. The Daily Action Summary of today's collection can be found in Attachment section of this report.
4. TBC understands Directive 6, which directs TBC to immediately report the results (final and preliminary) of any tests, logs samples or data collection performed on Well 3A, the cavern, other wells, facilities or site locations that indicate a change in any previously known conditions related to the investigation of the subsidence or natural gas bubbling

events, and continue to report any such results. The Daily Action Summary and the Results related to this Directive can be found in Attachment section of this report.

5. TBC understands the Directive 7, which states that TBC will provide a daily summary of all tests, or logs performed or samples taken from Well 3A and the cavern as well as any results of those tests or logs, including preliminary as of September 25, 2012 and going forward. The Daily Summary and Results related to this Directive can be found in Attachment section of this report.

Please note that the drilling rig used for the Observation Well 3A has been removed and the site is being rigged down and returned to pre-drilling condition. As such, daily drilling reports for this well have ceased. Plans are being made for longer term potential gas venting/flaring requirements and possible hydrocarbon material recover from Well 3A.

In addition, previous daily summary reports issued to LDNR have included significant duplicate information as there is a fair amount of overlap in the information requested in each of the Directives included in the September 25, 2012 order. All requested information associated with the Directives issued in the September 25, 2012 order are included in the Attachment section of this report.

TBC believes that the submittal of this report satisfies the requirements of the Declaration of Emergency and Directive issued on September 25, 2012. As directed this report is submitted by email to [conservationorder@la.gov](mailto:conservationorder@la.gov), ref. "Emergency Declaration-Texas Brine Company LLC-9/25/2012.

Bruce E. Martin

Vice President, Operations

Texas Brine Company, LLC

## **Attachments**

## Daily Action Summary

June 5, 2013

### Stationary Air Monitoring

- Bijeet Mukherjee onsite from 08:00 – 09:10. Changed out the monitors between 08:33 and 09:00. Collected data from the monitoring database and forwarded to Eric Rucinski in the Baton Rouge office for processing.
- Pete Hyatt IV of Code Red (monitor sub-contractor) onsite from 07:00 to 17:00. Assisted in battery change outs and maintenance of the monitoring equipment.

**NOTE:** ST-2 (ST-2a) was relocated to ST-2b on June 4, 2013 due to potential falling trees. The coordinates for ST-2b are detailed below:

Monitoring Location	Longitude	Latitude
ST-2b	91° 8'39.34"W	30° 0'43.42"N

### Residential Air Monitoring

- Sage has been requested to suspend bimonthly residential air monitoring. Therefore, Sage will discontinue these activities. The last event was conducted on March 26, 2013.

### Gas Seep Sampling

- Not Scheduled

### Well Gas Sampling

- Not Scheduled

### Under Slab Gas Sampling

- Not Scheduled

### Air Indoor Monitoring

- Not Scheduled

Notes:

## **ME&A Daily Action Summary**

June 5, 2013

### **Subsidence Survey:**

- Arrived @ 8:00 am
- Ran conventional level loop starting at TBM 2 which is a nail set in a power pole adjacent to the main roadway and OxyGeismar #2 well pad. Ran level loop through brine wells (1,2 & 3), water wells (1,2 & 3), TBM's, and the two brine storage tanks.

### **Sinkhole Perimeter/Hydrographic Survey:**

- Survey swamp area outside of sinkhole to determine extent of subsidence area
- Departed @ 4:00 pm

### **Support Sinkhole Cleanup**

- No Work Done

### **Misc. Survey Work**

- No Work Done

# Michael Pisani & Associates

Texas Brine, L.L.C.

Assumption Parish, Louisiana

## Daily Field Report

Report By: Patrick Ritchie  
Company: MP&A

Date: 6/5/2013  
Work Order # 80-05

Health and Safety Meeting  YES  NO

Weather: 83 F Partly Cloudy, hot, humid

Personnel	Company	Job Title
Patrick Ritchie	MP&A	Environmental Scientist
John McGuire	MP&A	Environmental Scientist
Ed Graham	MP&A	Environmental Scientist

Site Activities: Start Time 7:50 End Time 16:00

**Equipment On-site:** Airboat

**Daily Activity:**  
Collect laboratory samples from MRAA wells  
Observe, video, measure bubble sites  
Attempt to collect laboratory samples from ORW well

Estimated time of completion:  
On-going

**Proposed schedule:**  
Conduct in-situ monitoring surface water transect and industrial water well locations  
Measure water level for the industrial water wells and MRAA wells  
Measure pressure and water level at TBC Geoprobe locations  
Collect laboratory samples from the industrial water wells  
Collect laboratory samples from surface water transect locations  
Observe, video, measure bubble sites  
Collect laboratory samples from GP and ORW wells  
Estimated time of completion:  
On-going

Initials: PMR
